# Cbgraph - CB Marketplace, CB Analytics Tool - 75% Recurring Commission: An In-depth Review

## Introduction

Are you tired of wasting time searching for the best products to promote on ClickBank? Look no further. Cbgraph - CB Marketplace, CB Analytics Tool is here to revolutionize your experience on the ClickBank Marketplace. With its powerful features and user-friendly interface, this tool promises to make your affiliate marketing journey more efficient and profitable.

## What is Cbgraph?

Cbgraph is a comprehensive analytics tool designed specifically for the ClickBank Marketplace. It offers a wide range of features that allow you to narrow down your search, analyze vendors and products, and make informed decisions about which products to promote.

## How does Cbgraph Work?

Cbgraph provides a more pleasant browsing experience of the ClickBank Marketplace by offering over 30 filters to help you narrow down your results. This means you can easily find products that align with your niche and target audience. Additionally, the built-in gravity graphs allow you to instantly recognize good vendors and products that are already gaining traction in the market.

The interactive charts feature is another highlight of Cbgraph. With access to 7+ years of historical data, you can compare two stats at once and see the exact daily values of all ClickBank stats in a popup. The zooming, sliding, and moving functions make it easy to analyze trends and make data-driven decisions.

The 'Categories' Report is a useful tool for understanding seasonal trends. By knowing the best time to promote products in specific niches, you can maximize your affiliate revenue. Additionally, the 'Items + Refunds' section provides valuable

insights into the items sold by vendors, your affiliate revenue, and the refund rate of a vendor's main product.

One of the secret weapons of successful affiliates is promoting high-quality products with low competition. Cbgraph helps you identify profitable vendors with low gravity, giving you a competitive edge in the market.

With the option to store selected vendors in your own organized folders, you can easily keep an eye on their performance and decide when to start or stop promoting them. This feature ensures that you are always up-to-date with the performance of your chosen vendors.

Predefined Searches save you time by allowing you to save multiple settings of the 'filters', 'order by', and 'folders' controls. This means you can access your preferred search settings with just one click, eliminating the need to make the same adjustments repeatedly.

If you're looking for discounted ClickBank products, Cbgraph has you covered. Often, within the 'Items + Refunds' report, you can uncover discounted items. This not only helps you save on your own purchases but also enables you to suggest better offers to your customers.

Lastly, Cbgraph allows you to become the first affiliate to promote a new ClickBank bestseller. By being ahead of the competition, you can maximize your earnings and establish yourself as a trusted affiliate marketer in your niche.
